**BACKGROUND INFO:**

Enrique Simms was born to a troubled life with an abusive white father and a very ill Latino mother in the ghettos of Phoenix. He learned early on to watch his back, as well as his fellow gang members, the 47th Street gang. Incarcerated at the age of 16 for wrongful death when a robbery went astray, he was looking at 25 to life before his older brother, also arrested in the botched job, convinced authorities that he had coerced his younger brother into coming along. Pedro Simms got the maximum sentence while Enrique served just 5 years.

While in prison, Enrique joined another gang to stay alive. While there he made new contacts, both behind bars and on the streets outside, to make him an even better criminal. After getting out of prison in 2004, Enrique delved deeply into the criminal underworld, boosting cars and breaking into the homes of the wealthier part of society across the tracks. No matter what he procured, he always had someone to take the hot merchandise off his hands.

His life of crime came to an abrupt end when he was double-crossed on a job, resulting in his capture. However, the residence he broke into was an Agency safe house. He did it with such skill that the Agency offered him a deal: Learn the skills to be an unmatched infiltration expert, stay loyal to the Agency, and his brother would be freed from prison. The young sneakthief took to the job without regret, quickly becoming an infiltration mastermind. He took on the nickname Linchpin for being the key part of any covert operation.

Enrique has dedicated himself to his craft, even forgoing any serious relationships. He knows that if he screws up again, his brother will go back to prison to serve the rest of his life sentence. The Agency will make sure of that.
