BACKGROUND INFO:

Grew up in Florida all his life with his father who was a semi-pro circle track driver. Average education as he opted to follow in his father's footsteps and try his hand at racecar driving. Became very familiar with the mechanics trade as he started helping his father repair and fine tune his racecar at an early age. After graduating high school, he enrolled into various driving schools and excelled to the top of his class. After almost 3 years, he was certified and ready to race. Possesses lightning reflexes and excellent hand-eye coordination. Started racing in the open stock dirt track circuit for almost 7 years in the lower Tampa area where he started to gain notoriety and sponsors. Gravitated to asphalt in no time, racing for another 4 years. His future looked very promising until a tragic accident at the age of 32 where he was seriously hurt as he slammed into a cement barrier at an estimated speed of 125 MPH. Deemed a liability to the racing world, no sponsors would touch him. Has focused on bringing his health back into check along with sharpening his mechanics background for the past couple of years. A mechanical genius and still an excellent driver to an array of vehicles, he was approached by the Agency in becoming an Agent, where all negotiations were agreed upon.
