BACKGROUND INFO:

Born Wakkanai, Japan. Both parents still alive as is her older brother, Tokai. Average upbringing. However, at age 11, Sliver became emotionally detached from her family and peers. She dropped out of school and delved into the world of Japanese prostitution at age 13. Not much is know about her between the ages of 13 and 19 when at that time she was brought overseas, as a guest, by a well known Las Vegas high roller, Mr. James Forliti. Wanting to keep her in the country with him, Mr. Forliti, with his influence and checkbook, aided her in getting citizenship here in the US. She promptly became interested in the glitzy Vegas world of exotic dancing. Sliver became very sought after as a popular local dancer. One year later Mr. Forliti was found dead in a hotel room just outside of Vegas. Shot twice in the stomach and once in the back of the head. Sliver was notified of Mr. Forliti's death while she was attending a private party for another well known Vegas high roller, nightclub owner and suspected mob affiliate, Mr. Angelo Bazalinni. Both are still considered suspects in the case.

Sliver was asked to join the Agency do to her particular choice in occupation and obvious ability to get into and up close with some of the countries higher-ups and restricted areas. She has been viewed as one of the more popular agents as noted by several of the Agency's outside contacts.
