BACKGROUND INFO:

Ojimba Noray was born in Haiti, brought up in the old traditions of voodoo by his father. A long blood feud between his family and another severely depleted both families of their male heirs. Reports of missing persons and mutilation rituals abounded. At the age of sixteen, upon his father's death, Ojimba realized that his brother was going to be kidnapped and zombified: buried alive and released later after voodoo rituals had been completed, all to serve another voodoo priest. Ojimba could not let this happen to his dear brother.

Using ancient, powerful rituals taught to him by his father, the Soul Eater interred his brother Julio first before the other priest could kidnap him. What he dug up the next night was an abomination that used to be his brother, and compliant to his every wish. When the voodoo priest's people came to kidnap Julio, they were torn limb from limb by a soulless creature with a vacant stare.

No one is quite sure how Ojimba Noray was recruited by the Agency, or even what handler he works under. Investigations into this have been dropped within days, and Noray continues about his business of dealing with the Agency's political enemies. His supervisors have slowly sickened or outright died of mysterious flesh-wasting illnesses or bizarre accidents, leaving him free to ascend the ladder in the power vacuum.

Noray is extremely intelligent, and immaculately groomed and professional. Those that have had the rare occasion to see him in his voodoo ritual vestments have been shocked at the transformation from political power player to religious zealot.

The Agency picture is actually that of his "deceased" brother, as Noray will not allow photographs to be taken of him because of the power he claims another could have over him by having his picture. Covert photographs taken by Agency operatives of him come out blurry and indistinct, no matter the lighting or atmosphere. In pictures of him with other individuals, only his form is indistinct, leaving the rest of the picture crystal-clear.
