PLACE: N/A

MISSION BRIEFING:

Political elections take place almost every year in some shape or form in the world and sometimes, corrupt contributions are involved. Zimbabwe will be holding their parliamentary democracy elections next week and the agency is led to believe that an illegal campaign contribution of diamonds by the Darkened Mined organization will be made to throw off the election. The Zimbabwe government does not want outside disruptions and is closing its borders to prevent any interference. Agency intelligence suggests the diamonds will be coming out of the Silverback Mine, located north west of Victoria Falls along the Zambezi river in the country of Zambia, and be transported somehow into Zimbabwe before the elections take place. Your mission is to investigate the Silverback Mine and stop any transportation of illegal diamonds into Zimbabwe.

MISSION DEBRIEFING:

Mission completed 2:12 pm on 4-12-09.

Agents made their way to Victoria Falls and bribed their way through the border security checkpoint. The team proceeded to the Silverback Mine controlled by the Darkened Mined organization. Agents posed as Governmental Mining Securities Liaisons and gained entrance to the mine. A very thorough check on the Agents cover identity was performed by the diamond smuggling syndicate but came up unsuccessful in divulging their true identity. Later negotiations with Mr. Montago, one of the Darkened Mined's mid-level leaders and overseer of the mine, exposed a divide in the organization with another member known as Mr. Harrison. The Agents used this newly acquired information to gain the organizations trust and later found a Zambezi Whitewater kayak rental receipt. Following this new lead, the team obtained kayak rentals themselves and joined a party consisting of a Darkened Mined transporter down the Zambezi River. Two Agents followed the transporter over the 300' drop of Victoria Falls and down the twists and turns of the rapids below. Agent Piranha made it as far as the rapids known as "Commercial Suicide" before dropping out of the chase. Agent Scorch followed the transporter completely down the rapid chain and eliminated the transporter, bringing 146 rough-cut or blood diamonds back to the Agency. Zimbabwe's democratic elections were not influenced in any way and went off without a hitch where a non-corrupt official was elected into office.
