MISSION BRIEFING:

MISSION UPDATE ***MISSION UPDATE*** ***MISSION UPDATE*** ***MISSION UPDATE***

The Agency has just received a copy of a ransom demand that was delivered five minutes ago to the United Nations Security Council. It was sent by Vladimir Rastikof, a very dangerous and notorious Russian mercenary. He is demanding one hundred and fifty million dollars to be transferred to a foreign securities bank account, once the UN has accepted the demand or he will eliminate Dr. Jozef Krivosova and all his data, along with unleashing the "Perun's Bolt" virus throughout Europe. He has given a 24-hour time constraint for his demands to be met and the money transferred to his account. Your mission is to find out where Vladimir Rastikof is hiding and retrieve the "Perun's Bolt" virus along with Dr. Krivosova, before the 24 hours are up. Airline tickets are waiting, to fly you to Russia's Sheremetyevo Airport.
