MISSION BRIEFING:

Some of the wealthiest and ruthless people in the world are weapons arms dealers. Many connections to these people are established through the use of fear and manipulation. One such figure who goes by the name Red Star, but whose true identity is still unknown, is notorious for conducting business all over the west coast, selling extensive amounts of highly explosive materials to suspected terror cells. The Agency has recently obtained a lead from an intercepted letter on the whereabouts of one of the dealer's connections that apparently will be checking into the Luxor Hotel in Las Vegas tomorrow morning. The letter was addressed to Shiloh and only contained the hotel name, date of tomorrow and time of 7:30 pm. Your mission is to locate and make contact with Shiloh at the Luxor Hotel and try to retrieve any information on Red Star or the sale of any illegal explosives.

MISSION DEBRIEFING:

Mission completed 8:52 pm on 05-05-07.

Agents made their way to Las Vegas where they established multiple accommodations and made contact with Shiloh, who was involved in a heated hotel casino poker tournament. After some shrewd negotiations and emotional banter, one of the Agents established a personal relationship with her for possible future requests. The Agent had to exert many seductive and physical techniques with the female mark to finally acquire her trust. An unforeseen reconnaissance team hired by Red Star was cleverly revealed to be shadowing Shiloh during the mission, which led to possibly thoughts of a set up. Shiloh agreed to hand over her package from Red Star to the Agents and try walking on the right side of the law after much negotiations and consultations. Agents proceeded to a warehouse housing a very large cache of RAW explosives and proceeded to liquidate a very well armored assassination squad hired to take down Shiloh who was suspected as being untrustworthy and damaged goods. Shiloh was brought back to the Agency for further debriefing and evaluation along with possible assignment as an Agent.
