ORGANIZATION BACKGROUND:

Founded in 1976 by two brothers who shared a large fishing boat in which they decided to take tourists around the coastal waters of Nassau, Bahamas. Ten years later, they acquired five small sized yachts where they started to lease out and rent them to tourists for a period of time for vacation purposes. Today, Prince George Yacht Rental is one of the biggest yacht rental companies in the Caribbean and possesses some of the more extravagant of modern day yachts that money can buy. The company has a handful of staff that oversee the day-to-day business along with it's own yacht maintenance crew and foreman. The company, including all of its assets, is estimated to be worth over 8.5 million dollars and is one of the top grossing companies in its region and market.
