ORGANIZATION BACKGROUND:

Southern Billing Co. was a small real estate outfit that started in Las Cruces, NM. Nathan Jorgens, the public figure of the small office, grew in prominence in the small city, speaking very loudly on issues of the Church and its leniency, in his opinion, on the matters of gays and lesbians, tithing, lower class and immigrant rights, and various other matters that were sure to polarize the upper from the lower class.

Jorgens made a fortune selling large tracts of land to the politicians of the state, ensuring his continued growth in the real estate arena. Since its humble beginnings, Southern Billing Co. has expanded into high-end cars and the stock market.

Making money is the business of Southern Billing Co., and business is very, very good.
